

AVISCERA BIOSCIENCE

Anti C1q Related Factor (C1QRF) (Human) IgG

Product Information

Code	A00178-01-100
Name	Anti human C1QRF IgG
Clone No.	Polyclonal
Lot No.	
Size	100 µg
Species	Human
Host	Rabbit
Immunogen	C1QRF, globular form (H), rec.
Ab Type	Rabbit IgG
Purification	Protein A
Formulation	PBS lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Human
Reconstitution	PBS, 100 µl
Application	IHC ELISA

Preparation

This antibody was produced from a rabbit immunized with purified, *E. coli*-derived, recombinant the globular form of human C1QRF, which was purified with protein A affinity.

Formulation

100 µg of rabbit anti-C1QRF (Human) Purified IgG in 100 µl of PBS without preservatives was lyophilized.

Reconstitution

Add 100 µl of PBS contains 0.1% BSA to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize human C1QRF on indirect ELISAs and immunohistochemistry.

Applications

Indirect ELISA - This antibody can be used at 1-2 µg/ml with the appropriate secondary reagents to detect recombinant globular form of human C1QRF.

Immunohistochemistry – This antibody can be used at 5~10 µg/ml with the appropriate secondary antibody to detect C1QRF in human pancreas cancer tissues (ABC).

Optimal dilutions should be determined by each laboratory for each application.

THIS PRODUCT IS FOR RESEARCH ONLY. NOT FOR USE IN HUMANS.
