

## Anti Rat Vasostatin-2/ Chromogranin A (19-146) IgG

### Product Information

Code	A00085-02-100
Name	Rat Vasostatin-2 Antibody
Clone No.	
Lot No.	
Size	100 µg
Species	Rat
Host	Rabbit
Immunogen	Rat Vasostatin-2 rec.
Ab Type	IgG
Purification	Protein A Lyophilized
Formulation	Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Rat, Human
Reconstitution	100 µl
Application	ELISA

### Preparation

This antibody was produced from a rabbit immunized with purified, E. coli-derived, recombinant rat Vasostatin-2/Chromogranin A (19-146). That antibody was purified by Protein A.

### Formulation

100 µg of rabbit anti rat Vasostatin-2 IgG in 100 µl of PBS lyophilized form.

### Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (100µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for 12 months without detectable loss of activity.

**Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize recombinant rat Vasostatin-2/Chromogranin A (19-146) on indirect ELISAs.

### Applications

**Indirect ELISA** - This antibody can be used at 1:8000 (0.125 µg/ml) to detect rat Vasostatin-2 on indirectly ELISA.

**Immunohistochemistry** - This antibody can be used at 2 ~ 4 µg/ml to detect vasostatin-2 /Chromogranin A (19-146)on rat and human pancreas tissues

*Optimal dilutions should be determined by each laboratory for each application.*
