## Rabbit Anti-Mouse CTRP12 Antibody

### Product Information

Code	A00392-03-100
Name	Anti- mouse CTRP12 Antibody
Clone No.	Polyclonal
Lot No.	
Size	100 µg
Species	Mouse
Host	Rabbit
Immunogen	Mouse CTRP12, full length rec.
Ab Type	IgG
Purification	Protein A
Formulation	Lyophilized form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Mouse CTRP12
Reconstitution	PBS, 100 µl
Application	IHC  E

### Preparation

This antibody was produced from a rabbit immunized with purified recombinant mouse CTRP12, full length. That was purified by Protein A affinity.

### Formulation

100 µg of rabbit anti-mouse CTRP12 IgG in 100 µl of PBS without preservatives in lyophilized form.

### Reconstitution

Add 100 µl of PBS to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Storage

This lyophilized antibody can be stored at 4 ° C for a few weeks. It can be stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Specificity

This antibody has been selected for its ability to recognize mouse CTRP12 on indirect ELISA and immunohistochemistry.

### Applications

**Indirect ELISA** - This antibody can be used at 0.125 µg /mL with the appropriate secondary reagents to detect recombinant mouse CTRP12.

**Immunohistochemistry**-That Antibody can be used at 2-4 µg/ml with the appropriate secondary antibody to detect CTRP12 in mouse paraffin embedded visceral adipose tissues (ABC).

*Optimal dilutions should be determined by each laboratory for each application.*
