

AVISCERA BIOSCIENCE

ANTI HUMAN HEART TYPE FATTY ACID BINDING PROTEIN/FABP-3 MONOCLONAL ANTIBODY

Product Information

Code	A00213-07-100
Name	Anti FABP3 (H) Mab
Clone No.	3C9E12C7F9
Lot No.	
Size	100 µg
Species	Human
Host	Mouse
Immunogen	Human HFABP rec.
Ab Type	IgG
Purification	Protein A Lyophilized
Formulation	Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Human
Reconstitution	100 µl
Application	ELISA

ORDER INFORMATION

AVISCERA BIOSCIENCE, Inc

2348 Walsh Ave, Suite C,
Santa Clara, CA 95051

Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, E. coli-derived, recombinant human HFABP/FABP-3. That antibody was purified by Protein G/A affinity.

Formulation

100 µg of Anti Human HFABP/FABP-3 monoclonal antibody in 100 µl of PBS lyophilized form.

Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (100µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for 12 months without detectable loss of activity.

Avoid repeated freeze-thaw cycles.

Specificity

This antibody has been selected for its ability to recognize recombinant human HFABP in indirect ELISA.

Applications

Indirect ELISA - This antibody can be used at 1:10000 (0.1 µg/ml) to detect human HFABP on indirectly ELISA.

Optimal dilutions should be determined by each laboratory for each application.

THIS PRODUCT IS FOR RESEARCH ONLY. NOT FOR USE IN HUMANS.
