Mouse Anti Asprosin (Human) IgG Biotinylated

Product Information

Code	A00229-21-50B
Name	Mouse Anti Asprosin (Human) IgG Biotinylated
Clone No.	polyclonal
Lot No.	
Size	50 µg
Species	Human
Host	Mouse
Immunogen	Asprosin (Human)
Ab Type	IgG
Purification	Protein G
Formulation	Lyophilized Form
Carry	BSA
Storage	-20 ° C
Specificity	Human,
Reconstitution	100 µl
Application	ELISA

Preparation

This antibody was produced from a mouse immunized with highly purified recombinant human Asprosin. That antibody was purified by Protein G affinity and conjugated with water soluble biotin.

Formulation

50 µg of Mouse Anti Asprosin (Human) IgG Biotinylated in 50 µl of PBS contains 0.05% BSA lyophilized form.

Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (500µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize Asprosin (Human) on indirect ELISAs.

Applications

Indirect ELISA - This antibody can be used at 0.25 -0.125 µg/ml to detect Asprosin (Human) on indirectly ELISA.

Optimal dilutions should be determined by each laboratory for each application.
