RABBIT ANTI- HUMAN ALBUMIN IGG

Product Information

Code	A00383-01-100
Name	Anti Human Albumin IGG
Clone No.	N/A
Lot No.	ALB001
Size	100 µl
Species	Human
Host	Rabbit
Immunogen	Human Albumin, Rec.
Ab Type	IgG
Purification	Protein A Lyophilized
Formulation	Form without Preservatives
Carry	Free
Storage	-20 ° C
Specificity	Human
Reconstitution	PBS, 100 µl
Application	IHC ELISA

PREPARATION

This antibody was produced from a rabbit immunized with recombinant human albumin. That IgG was purified by Protein A affinity

FORMULATION

100µg of purified IgG in 100 µl of PBS without preservatives was lyophilized.

RECONSTITUTION

Add 100 µl of PBS to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

STORAGE

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

SPECIFICITY

This antibody has been selected for its ability to recognize mature Human albumin on indirect ELISAs and immunohistochemistry.

APPLICATIONS

Indirect ELISA - This antibody can be used at 1: 10000 (0.1 µg /mL) with the appropriate secondary reagents to detect human albumin on indirect ELISA.

Immunohistochemistry-That Antibody can be used at 1: 200 (5 µg /mL) with the appropriate secondary antibody to detect albumin in human liver tissues (ABC).

Optimal dilutions should be determined by each laboratory for each application.
