

AVISCERA BIOSCIENCE

Rabbit Anti- Rat Albumin IgG

Product Information

Code	A00383-02-100
Name	Rat Albumin Pab
Clone No.	N/A
Lot No.	
Size	100 µl
Species	Rat
Host	Rabbit
Immunogen	Rat Albumin
Ab Type	IgG
Purification	Protein A Lyophilized
Formulation	Form without Preservatives
Carry	Free
Storage	-20 ° C
Specificity	Rat
Reconstitution	PBS, 100 µl
Application	IHC ELISA

Preparation

This antibody was produced from a rabbit immunized with isolated rat Albumin. That IgG was purified by Protein A affinity

Formulation

100µg of purified IgG in 100 µl of PBS without preservatives was lyophilized.

Reconstitution

Add 100 µl of PBS to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize mature rat albumin in direct ELISAs.

Applications

Indirect ELISA - This antibody can be used at 1: 8000 (0.125 µg /mL) with the appropriate secondary reagents to detect rat albumin on indirect ELISA.

Immunohistochemistry-That Antibody can be used at 1: 200 (5 µg /mL) with the appropriate secondary antibody to detect albumin in rat liver tissues (ABC).

Optimal dilutions should be determined by each laboratory for each application.
