

# AVISCERA BIOSCIENCE

## ANTI-MOUSE CTRP6 IGG BIOTINYLATED

### Product Information

Code	A00089-07-50B
Name	Anti Mouse CTRP6 IgG Biotinylated
Clone No.	Polyclonal
Lot No.	
Size	50 µg
Species	mouse
Host	Goat
Immunogen	mouse CTRP6, Full Length rec.
Ab Type	IgG
Purification	Protein G
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Mouse, rat
Reconstitution	50 µl
Application	IHC  ELISA

### Preparation

This antibody was produced from a goat immunized with purified recombinant Mouse CTRP6 Full Length. That was purified by Protein G affinity and conjugated with water soluble biotin.

### Formulation

50 µg of goat anti-CTRP6 (Mouse) IgG Biotinylated in TBS contains 0.2% BSA without preservatives was lyophilized.

### Reconstitution

Add 50 µl of TBS contains 0.2% BSA to the vial to prepare antibody stock solution at 1000 µg/ml.

Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months.

**Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize Mouse and rat CTRP6 on indirect ELISAs and immunohistochemistry.

### Applications

**Indirect ELISA** - This antibody can be used at 0.05 µg/ml with the appropriate secondary reagents to detect Mouse CTRP6 on indirect ELISA.

**Immunohistochemistry**-That Antibody can be used at 2-4 µg/ml with the appropriate secondary antibody to detect CTRP6 in the paraffin embedded mouse and rat adipose tissues (ABC).

*Optimal dilutions should be determined by each laboratory for each application.*
