## Rabbit Anti-Human CTRP7 IgG Biotinylated

### Product Information

Code	A00396-01-50B
Name	Anti- Human CTRP7 IgG Biotinylated
Clone No.	Polyclonal
Lot No.	
Size	50 µg
Species	Human
Host	Rabbit
Immunogen	H CTRP7, full length, rec.
Ab Type	IgG
Purification	Protein A
Formulation	Lyophilized form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Human CTRP7
Reconstitution	50 µl
Application	IHC  E

### Preparation

This antibody was produced from a rabbit immunized with purified recombinant human CTRP7, full length. That was purified by Protein A affinity and conjugated with water soluble biotin.

### Formulation

50 µg of rabbit anti-Human CTRP7 IgG in 50 µl of TBS contains 0.2% BSA without preservatives in lyophilized form.

### Reconstitution

Add 50 µl of TBS to the vial to prepare antibody stock solution at 50 µg/50 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Storage

This lyophilized antibody can be stored at 4 ° C for a few weeks. It can be stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Specificity

This antibody has been selected for its ability to recognize human CTRP7 on indirect ELISA and immunohistochemistry.

### Applications

**Indirect ELISA** - This antibody can be used at 0.125 µg /mL with the appropriate secondary reagents to detect recombinant human CTRP7.

**Immunohistochemistry**-That Antibody can be used at 2-4 µg/ml with the appropriate secondary antibody to detect CTRP7 in human paraffin embedded visceral adipose tissues (ABC).

*Optimal dilutions should be determined by each laboratory for each application.*
