

# AVISCERA BIOSCIENCE

## Rabbit Anti-Human CTRP-9 IgG

### Product Information

Code	A00081-04-100
Name	Anti Human CTRP9 IgG
Clone No.	N/A
Lot No.	
Size	100 µl
Species	Human
Host	Rabbit
Immunogen	CTRP-9 (H) mature form rec.
Ab Type	IgG
Purification	Protein A
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Human
Reconstitution	PBS, 100 µl
Application	IHC  ELISA

### Preparation

This antibody was produced from a rabbit immunized with purified, *E. coli*-derived, recombinant mature form of Human CTRP-9. That IgG was purified by Protein A affinity.

### Formulation

100µg of purified Anti Human CTRP9 IgG in 100 µl of PBS without preservatives was lyophilized.

### Reconstitution

Add 100 µl of PBS to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C in a **manual defrost freezer** for up six months without detectable loss of activity.

### Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize mature form human CTRP-9 on indirect ELISAs as well as immunohistochemistry.

### Applications

**Indirect ELISA** - This antibody can be used at 0.0625 µg /mL with the appropriate secondary reagents to detect human CTRP-9 mature form on indirect ELISA.

**Immunohistochemistry**-That Antibody can be used at 2.5-5 µg /mL with the appropriate secondary antibody to detect CTRP-9 in paraffin embedded human adipose tissues (ABC).

*Optimal dilutions should be determined by each laboratory for each application.*
