

AVISCERA BIOSCIENCE

Anti-Human Soluble DcR3 Antibody

Product Information

Code	A00389-01-100
Name	Anti DcR3 (H) IgG
Clone No.	Polyclonal
Lot No.	
Size	100 µg
Species	Human
Host	Rabbit
Immunogen	sDcR3 (H), rec.
Ab Type	Rabbit IgG
Purification	Protein A
Formulation	PBS lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Human
Reconstitution	PBS, 100 µl
Application	IHC ELISA

Preparation

This antibody was produced from a rabbit immunized with purified, *E. coli*-derived, recombinant human soluble DcR3/TNFRSF6B. That was purified with protein A affinity.

Formulation

100 µg of rabbit anti-human soluble DcR3 Purified IgG in PBS without preservatives was lyophilized.

Reconstitution

Add 100 µl of PBS contains 0.1% BSA to the vial to prepare antibody stock solution at 100 µg/100 µl. Store reconstituted antibody at 2 to 8 ° C for a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize human soluble DcR3 in direct ELISAs and western blots as well as immunohistochemistry.

Applications

Direct ELISA - This antibody can be used at 1:2000 with the appropriate secondary reagents to detect recombinant human DcR3.

Immunohistochemistry-That Antibody can be used at 1: 250~ 500 (2~ 4 ug/ml) with the appropriate secondary antibody to detect sDcR3 in human colon and stomach tissues as well as human colon cancer tissues (ABC).

Optimal dilutions should be determined by each laboratory for each application.
