

AVISCERA BIOSCIENCE

Rabbit Anti- Mouse Eosinophil Cationic Protein (ECP) IgG Biotinylated

Product Information

Code	A00128-03-100
Name	Anti Mouse ECP IgG Biotinylated
Clone No.	N/A
Lot No.	
Size	50 µg
Species	Mouse
Host	Rabbit
Immunogen	ECP (Mouse) mature form rec.
Ab Type	IgG
Purification	Protein A
Formulation	lyophilized Form without preservatives free
Carry	
Storage	-20 ° C
Specificity	Mouse
Reconstitution	PBS, 50 µl
Application	ELISA

Preparation

This antibody was produced from a rabbit immunized with purified, *E. coli*-derived, recombinant mature form of Mouse ECP. That IgG was purified by Protein A affinity.

Formulation

50 µg of Anti Mouse ECP IgG Biotinylated in PBS without preservatives was lyophilized.

Reconstitution

Add 50 µl of PBS to the vial to prepare antibody stock solution at 50 µg/50 µl. Store reconstituted antibody at 2 to 8 ° C for up a few weeks. This antibody can also be aliquotted (by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for up six months without detectable loss of activity.

Storage

Lyophilized antibody can be stored at 2 ~8 ° C for a few weeks or at -20 ° C for six months. **Avoid repeated freeze-thaw cycles.**

Specificity

This antibody has been selected for its ability to recognize mature form Mouse ECP in direct ELISA.

Applications

Indirect ELISA - This antibody can be used at 1: 10000 (0.1 µg /mL) with the appropriate secondary reagents to detect mouse ECP mature form on indirect ELISA.

Optimal dilutions should be determined by each laboratory for each application.
