

# AVISCERA BIOSCIENCE

## Anti Eosinophil Cationic Protein (ECP) (Human) Monoclonal Antibody

### Product Information

Code	A00128-07-100
Name	ECP (Human) Mab
Clone No.	2D10A9A1
Lot No.	
Size	100 µg
Species	Human
Host	Mouse
Immunogen	Human ECP rec.
Ab Type	IgG
Purification	Protein G
Formulation	Lyophilized Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Human
Reconstitution	100 µl
Application	ELISA (indirectly)

### Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, recombinant ECP (Human) mature form. That antibody was purified by Protein G affinity.

### Formulation

100 µg of Anti ECP (Human) Monoclonal Antibody in 100 µl of PBS lyophilized form.

### Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (100µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for 12 months without detectable loss of activity.

**Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize recombinant ECP (Human) on indirect ELISAs.

### Applications

**Indirect ELISA** - This antibody can be used at 1-5 µg/ml to detect ECP (Human) on indirectly ELISA.

*Optimal dilutions should be determined by each laboratory for each application.*
