

# AVISCERA BIOSCIENCE

## Anti Rat Fetuin A Monoclonal IgG

### Product Information

Code	A00173-10-100
Name	Rat Fetuin A Mab
Clone No.	1C10E6A5D2
Lot No.	
Size	100 µg
Species	Rat
Host	Mouse
Immunogen	Rat Fetuin A rec.
Ab Type	IgG
Purification	Protein G
Formulation	Lyophilized Form without preservatives
Carry	Free
Storage	-20 ° C
Specificity	Rat
Reconstitution	100 µl
Application	ELISA

### Preparation

This antibody was produced from a hybridoma resulting from the fusion of a mouse myeloma with B cells obtained from a mouse immunized with purified, E. coli-derived, recombinant Rat Fetuin A. That antibody was purified by Protein G affinity.

### Formulation

100 µg of Mouse anti Rat Fetuin A Monoclonal Antibody in 100 µl of PBS lyophilized form.

### Reconstitution and Storage

Add 100 µl deionized water to the vial to prepare a antibody stocking solution (100µg/ml). Stores it at 4°C for a few days. For long term storage, the reconstituted antibody can also be aliquotted ( by 10 µL per vial) and stored frozen at -20° C to -70° C **in a manual defrost freezer** for 12 months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

### Specificity

This antibody has been selected for its ability to recognize recombinant Rat Fetuin A indirect ELISAs.

### Applications

**Indirect ELISA** - This antibody can be used at 1:500 (2 µg/ml) to detect Rat Fetuin A on indirectly ELISA.

*Optimal dilutions should be determined by each laboratory for each application.*
